## **[Wessell Insurance](#) is proud to partner with Intoxalock, an industry-leading provider of Ignition Interlock Devices.**

### **What is an Ignition Interlock Device?**

Most people are required to install an ignition interlock device after a drunk driving conviction. Voluntary alcohol monitoring options are also available to help guarantee sober driving.

An ignition interlock device, often referred to as a car breathalyzer, is a small, hand-held breathalyzer that is installed in your car. The device has a mouthpiece in it that you will blow into before starting your car. With a clean breath sample, you'll immediately be able to start your car.

Intoxalock's state specialists are ready to answer your questions and help you through the process, one step at a time. It takes less than 10 minutes.

Because of our exclusive partnership, you may be eligible for a free Intoxalock ignition interlock installation. **Call (877) 571-1469 or [click here](#) to get started now.**

### **Why Choose Intoxalock?**

#### **The easiest device.**

We provide an industry leading ignition interlock device that is easy to use with its simple blow pattern and one button keypad. When you compare Intoxalock to other ignition interlock devices in the market, it's easy to see why it's a top choice among customers, state administrators, attorneys and more.

#### **The most convenient locations.**

Intoxalock has more locations as any other provider. In fact, we have a location within 15 miles of over 91% of our customers. Our installers are professional, trained and certified. Same or next-day installation is available in most areas.

**Call (877) 571-1469 or [click here](#) to find an installation and service location near you.**

#### **24/7/365 support from bi-lingual state-specific experts.**

Many Intoxalock Ignition Interlock representatives have been in your shoes. We understand that this can happen to anyone and are here to help you. We are your partner through the process and can educate you on state ignition interlock device laws and regulations.

Plus, you can easily manage your account, check calibration and billing dates, make payments, and more from the free Intoxalock Mobile App.

### **Affordable pricing with flexible payment options.**

Ignition interlock devices are leased (or rented), not purchased. The cost of your individual monthly lease payment will depend on several factors. On average, Intoxalock devices cost around \$2.50 a day. Voluntary customers are eligible for a substantial discount.

Intoxalock's pricing is affordable and provides the best value to customers. Intoxalock allows for either monthly or bi-weekly payment options to help you manage the costs associated with ignition interlock devices. Some states offer discounts or financial assistance for ignition interlock devices or installation.

**Call (877) 571-1469 or [click here](#) to get a free quote now.**

### **A trusted, industry leading company.**

Intoxalock has been in business for over 30 years, and is an industry leading provider of ignition interlock devices serving more than 150,000 customers annually. Intoxalock has more 5-star reviews on TrustPilot than any other ignition interlock provider, and we are the only interlock company to never be decertified or suspended from a state due to compliance violations. Our ignition interlock devices meet state requirements in 46 states across the nation, and our alcohol monitoring products are used in all 50 states.
